GLASS

Banquet Crystal
by Bohemia

A large circular image showing a close-up of several tall, slender crystal glasses, likely chalice glasses, with their stems and bases visible. The glasses are arranged in a slightly overlapping manner, and the lighting highlights the facets and clarity of the crystal. Two thin orange horizontal lines are positioned above and below the main title text.

FROM THE HEART OF EUROPE

ABOUT COMPANY

The glassworks was founded in 1967 as a consortium of Bohemia companies from the Ceskomoravská Vysocina area. The first mentions of glass production in this region date back to the turn of the 16th and 17th century. The tried and tested formulas and the concentration of craftsmanship in the area have contributed to the worldwide popularity of the broad and diverse assortment of quality glass products. The glassworks has always, for the whole time of its existence, invested in the latest technology. Handmade production and machine-blown production started in 1975, and another machine line went live at a later stage.

Another important milestone was the deployment of machine glass-cutting capacity in 1985. The year 1999 saw a major turnaround in the ratio of the traditional handmade production to the automated production which was induced by the acquisition of glass press machines. The trend of investing in progressive technology continued; approximately 500 million Czech crowns and 170 million Czech crowns were invested in 2000 and 2007, respectively, into a new furnace with the capacity of 36 tons and high-performance automated production lines for a new type of molten glass made to a new formula - and this is the glass the factory is making today.

In 2009, the glassworks was taken over by a new owner and he ceased its production of 24 % lead crystal. The glassworks now focuses exclusively on the new molten glass formula - branded as "crystalite" - and largely machine-made. The new and modern formula lends itself excellently to the sophistication of modern design and the products are sold in 45 countries of the world. At present, the factory operates 2 lines for machine production of blown beverage glass in the capacity of approximately 18 million units per year (i.e. DEGUSTATION, BISTRO, GOURMET), and 4 automated lines for the production of household glass in the capacity approximately 3 million units. In September 2010 we constructed 3rd furnace for pressed decanter production and during April 2011 we are going to start 4th with pressed hollowware technology so we doubled our capacity giftware which helps us to speed delivery dates rapidly.

We have also joined with small factory in South East Czech republic and we enlarged our assortment of premium quality mouth blown design articles and variety of additional decoration like gold and platinum painting, needle etching, dia etching etc.

BANQUET CRYSTAL presents a comprehensive collection of high quality Czech glass. Distinguished by its careful selection of materials, use of modern technologies, as well as long-term production experience, the BANQUET CRYSTAL brand is a guarantee of premium crystal glass. The BANQUET CRYSTAL product range offers a wide selection of glasses in various designs and sizes and you may be certain that you will always find the perfect product, whether for informal or festive occasions. The traditional quality of Bohemian crystal combined with pure, elegant design and tempered glass rims predestine the BANQUET CRYSTAL product assortment for use in gastronomic facilities. With BANQUET CRYSTAL products, you will enjoy your favourite drinks to the fullest.

Characteristics:

All products are made of high quality crystal or lead crystal glass. State-of-the-art glassblowing technologies are implemented in the production process. Particular attention is given to the toughening of the upper rim with the aid of a special tempering method, which significantly prolongs the durability of the finished products. The product range is suitable for restaurants, hotels, as well as other gastronomic or catering facilities. The products are easy to maintain and thanks to the superior quality of the processed glass, they are always ready to serve their designated purpose. All products are available in standard industrial packaging containing 6 / 24 pieces (Degustation), 6 / 24 pieces (Bistro), and 1 / 4 pieces (cruets). The Platinum Class (Amy and Enigma) collection is delivered in 2-piece packaging covered with black fabric and with an embossed Platinum Class logo. Special packaging and logistic support is subject to individual agreement. Each product (unless required otherwise by the customer) is marked with the BANQUET CRYSTAL registered trademark. Renowned Czech glass by Bohemia. Superior quality crystal or lead crystal glass. Modern technologies guarantee premium quality of materials and intense shine. Tempered rims ensure long life and service in gastronomic facilities. Large and small sizes for various occasions. Wide assortment of shapes and stem lengths.

Overview of Assortment and Packaging

BANQUET CRYSTAL products are packaged in decorative cardboard boxes. Unless required otherwise, each product is marked with the BANQUET CRYSTAL registered trademark. Standard industrial packaging includes boxes containing 6 / 24 pieces (DEGUSTATION, BISTRO) or 1 / 4 pieces (cruets). The Amy and Enigma collection is delivered in 2-piece packaging covered with black fabric and with an embossed Platinum Class logo. The "P" logo is also sanded on each glass foot to distinctly mark the product as belonging to the Platinum collection. Non-standard packaging and other specific requirements of customers relating to packaging and logistic services are dependent on the ordered quantity and are subject to individual agreement.

COLLECTIONS

Leona

Basic and functional wine glasses at our most economical (cheap!) prices. This promotional collection Leona was especially created for everyday use. Simple and elegant design at an attractive price making them perfect glasses for local pubs serving wine or catering for large parties.

Degustation

Pure, elegant design of crystal quality glass. Luxury glasses with large bowls and long stems. Extremely smooth surface and intense shine. Ideal for use at home and in restaurants. Tempered rim prolongs glass durability. Made with the aid of premium materials and state-of-the-art technology.

Lucille

Through its careful selection of materials, use of modern technologies, as well as traditional Czech workmanship, the Lucille collection is a guarantee of premium quality. With its supreme quality and elegant design, the Lucille collection of traditional glass will surely satisfy even the most demanding customers.

Marta

This high quality blown crystal glass collection with pleasant design offers unique experience of drinking wine for all wine lovers. Suitable for special occasions as well for everyday use. Using of modern technologies, these glasses with tempered rims ensure extended durability and resistance. Attractive design with combination of reasonable price level of this collection will surely catch attention of our customers.

Twiggy

The natural beauty of Twiggy glasses with slender stems, elegant shapes, and extremely large bowls will immediately catch your eye and your heart. In terms of the manufacturing technology, Twiggy glasses may boast of several unmatched characteristics. The ultra thin stems and the height of the glasses represent the utmost limit of state-of-the-art glass manufacturing. Twiggy glasses are distinguished by their extremely large bowls, which, once again, represent the utmost limit of present-day glass manufacturing. The bowls of Burgundy glasses, for example, have a volume of unbelievable 960 ml.

Veronica

Wide selection of vintage style glasses for everyday use.

Beer

Collection for all beer lovers - four precisely designed glasses for Wheat, Lager, Ale and Pilsner beer.

Decanters

Decanters or wine cruets are typically used to decant red wine. Decanters are also suitable for decanting selected varieties of white wines. Correct use is ensured by a careful selection of their shape. Handmade technology by mouth blowing. Special shapes provide maximum decanting effect. Ideal for special occasions at home and in gastronomic facilities. Made with the aid of premium materials and state-of-the-art technology.

Amy (V.I.P.)

Elegant, hand-shaped collection. Designed by Italian and Spanish winemakers. Wide glasses allow to enjoy the wine aroma in full. A narrower neck provides the ultimate wine-tasting experience. Each piece is handmade to create one-of-a-kind glasses of different shapes and sizes. Each glass is made of a single piece of glass. Seamlessly flowing shape from stem to upper rim. Tempered rim prolongs glass durability. Available in luxury 2-piece packaging covered with black fabric and with an embossed Platinum Class logo. "P" logo sanded on each glass foot marks each glass as pertaining to the Platinum collection.

Decanters

About collection

Decanters or wine cruets are typically used to decant red wine before it is served. BANQUET CRYSTAL decanters are distinguished by their carefully selected shapes for this purpose. Decanters are handmade, i.e. they are mouth blown. This technology allows the glass-blowers to create various shapes that ensure maximum effect when decanting wine. Decanters are commonly used for serving wine at gastronomic facilities and they may be also used at home during festive occasions.

Platinum collection

Amy

About collection

The elegant, hand-shaped collection was designed by winemakers from Italy and Spain. The fruitful cooperation with the winemakers resulted in a one-of-a-kind shape that allows the AMY collection to bring you the ultimate wine-tasting experience. The glasses are sufficiently wide to bring out the wine bouquet, while the elegantly narrowed neck ensures maximum drinking comfort. The genuine value of the AMY collection lies in its wide variety of shapes and sizes, which cannot be achieved otherwise than by making each piece by hand. Each glass is made from a single piece of glass and its shape flows seamlessly from the stem to the upper rim.

The wide range of shapes offers several types of glasses suitable for different varieties of white, rose, red, and dessert wines. The highlights of the collection include the beautiful "flute" champagne glass, the fashionable cognac glass, or the charming cordial glass for liqueurs. The Amy collection is delivered in 2-piece packaging covered with black fabric and with an embossed Platinum Class logo. The "P" logo is also sanded on each glass foot to distinctly mark the product as belonging to the Platinum collection.
